To do this select 'Personalise'.

Add the following information to make the most of your page:

- A fundraising goal A page headline
- Your story so people understand how important it is to you
- What you are doing and why A photo

See the last page for some information you could include about Myton if you would like to.

Select 'Save and continue' to complete your fundraising page.

You now have a JustGiving page that you can share with all of your friends, family and colleagues using email or through social media! Donating is really simple too so there shouldn't be any excuses...

Remember, you can log back into JustGiving at any time and amend any of the details, you can even add any money you have raised offline to your page so that it shows in the total amount raised as well as more photos and videos.
