

HOW WE HAVE MADE A DIFFERENCE TO PEOPLE THROUGH OUR MYTON AT HOME SERVICE

“

The help we received was more than we could have ever hoped for.

”

“

The care and help that the team gave to my wife was absolutely first class – I thank you from the bottom of my heart

”

“

Myton at Home delivered excellent emotional care and practical support for all of the family and total respect towards Mum (patient)

”

“

The nurses let me talk and talk – nothing was too much trouble

”

“

My husband received the most care and attention – I will be eternally grateful that because of this service he was able to remain at home where we both wanted him to be

”

PATIENT AND CARER INFORMATION

WARWICK & LEAMINGTON SPA

For many patients and their loved ones, having a choice about where they spend their final days is very important. Our Myton at Home service enables patients to remain in the comfort of their own home and be supported in their final weeks or days of life.

WHAT DOES OUR SERVICE OFFER?

We offer a high quality support service delivered by experienced staff who are specialists in end of life care. This service operates seven days a week, providing in your home:

- Personal care (attending to a patients' personal needs such as washing, dressing and toileting)
- Support for the whole family, providing emotional and psychological support as well as practical advice or training from the Myton at Home team
- Night sit support for patients at end of life
- Interim care while a continuing healthcare (CHC) package is being put together by the NHS
- Respite care to allow carers a break or to enable them to attend an appointment

WHO CAN ACCESS OUR SERVICE?

The service is available to anyone living with a terminal illness which no longer responds to curative treatment in the Warwick and Leamington Spa areas.

For patients already accessing our inpatient or day hospice services this ensures continuity of care and The Myton at Home team can meet patients and their families on the ward before they return home to talk through care plans and preferences. We support people with cancer and non-cancer illnesses.

Our service is available to those living within the areas highlighted on the map.

HOW TO ACCESS OUR SERVICE

Referrals can be made via your GP, District Nurse, Long Term Condition Nurse, Macmillan Nurse, through the hospice and also from the hospital. Once you have been referred, our Senior Nurse will visit or contact you to discuss your nursing needs and will ensure that the care is tailored to meet

these needs in the most appropriate way. Our Myton at Home service will complement the existing medical and nursing care that you are receiving.

WHO WE WORK WITH

We work hand in hand with District Nurses, Macmillan Nurses, other local hospices, care providers and nursing homes to ensure you have continuity of care and support.

HOW DOES THE SERVICE OPERATE?

Myton at Home is made up of a small team of nurses / nursing assistants. As the team is small, we can assure you that our nurses will become familiar with you. All of our team are specialists in end of life care.

HOW MUCH DOES THE SERVICE COST?

Our Myton at Home service is provided free of charge by The Myton Hospices and we are a registered charity. Over 80% of our income is generated through voluntary funding.

HOW OFTEN WILL WE VISIT AND FOR HOW LONG?

We will visit up to twice a day, once in the morning and again in the afternoon. We will be with you for around one hour but our visits are not at specific times, with the exception of night sits. Night sits can be provided 10pm - 7am.

WILL YOU NEED TO PROVIDE ANYTHING?

Should you need any specific equipment for your home then this will be discussed and arranged with your District or Community Nurse. We will also assess your needs and will be able to supply items such as slide sheets which enable our nurses to move patients safely.

WHAT HAPPENS IF I CAN NO LONGER COPE AT HOME?

Sometimes being at home at end of life or caring for someone at home at end of life can be more difficult than expected. If staying at home is no longer possible or appropriate, the Myton at Home team are skilled in being able to support individuals and families to know and understand the choices around options for care. The Myton at Home team in conjunction with the wider team is able to make referrals to other care services including The Myton Hospice's Inpatient unit.
